HARD SKILLS

- **Programming Languages:** JavaScript, Python, HTML5, CSS3, PHP, Typescript, React.
- **Backend Development:** Node.js, Express, REST APIs, JSON, JWT.
- **Databases:** MongoDB, Supabase.
- **Tools & Deployment:** VSCode, GitHub, Render, npm, Aws, Docker.
- **Web Design:** Responsive Design, Tailwind CSS
- **Office Suite:** Advanced MS Excel, Word, PowerPoint, Access
- **AI Automation:** Advanced development environment setup, integrating AI tools (OpenCode, Claude Code, and scripts) into system terminals and IDEs (VS Code).

SOFT SKILSS

- Organization and responsibility
- Problem solving
- Continuous learning
- Teamwork
- Effective communication
- Time management
- Adaptability

LANGUAGES

- **Spanish:** Native speaker.
- **English:** Advanced (Intermediate reading).
- **Portuguese:** Advanced (Oral & reading).

EDUCATION

Secondary School Diploma
Colegio Del Sol | 2017 – 2023

General Automotive Mechanics
Instituto Modena | Jun 2023 – Dec 2023

MATIAS GUTIERREZ

JR. FULL STACK WEB DEVELOPER

Junior Web Developer with a Full Stack focus. I build modern, responsive and functional applications using JavaScript, TypeScript, React, Node.js, APIs, AI, automations and databases. I focus on solving problems and building real solutions.

FEATURED PROJECTS

Portfolio

Full stack portfolio built as a personal platform, developed with TanStack Start, React 19, TypeScript, Vite, Node/Nitro and Tailwind CSS. It integrates Supabase/PostgreSQL, MongoDB, Groq-powered AI chat, authentication, CRUD admin panel, analytics, project manager, messages, CV, ES/EN i18n, storage and Render deployment.

🔗 matiasdev.devs.surf

Meridian - Business Suite

ERP/CRM/POS with double-entry accounting, real-time inventory, 21% VAT invoicing, treasury and audit. Node.js backend with zero dependencies, REST API + SPA, roles and JWT. Deployed on AWS EC2 with Nginx and HTTPS.

🔗 meridian.devs.surf

SyncWeave - Real-Time Web Editor

Real-time collaborative cloud editor without account friction. Built with React and TypeScript on the frontend, and a Node.js/Express backend using WebSockets (Socket.io) for instant sync and MongoDB for storage.

🔗 syncweave.devs.surf

ENGINEERING PRACTICES

- Automated testing and CI/CD with GitHub Actions (continuous deploy over SSH to AWS EC2). Linux servers with Nginx reverse proxy, HTTPS via Let's Encrypt and systemd services. Docker, Husky pre-commit, Conventional Commits and trunk-based development.

DEVELOPMENT EXPERIENCE

- Development of modern and scalable Full Stack web applications.
- Backend with Node.js and Express: REST APIs, middlewares, JWT/roles, HTTP.
- Frontend architecture with React, TypeScript, Vite and Tailwind (HTML, CSS, JS).
- Database integration, authentication systems, and user management.
- Development of admin panels, dashboards, and management systems.
- Performance optimization, user experience enhancement, and responsive design.
- Cloud deployment and application maintenance using AWS EC2, Render, and Netlify.
- Version control, collaboration, and project management with Git and GitHub.

WORK EXPERIENCE

- **Full-Stack Dev (03-2025 / ACT.)**
Full Stack Developer specializing in the development of modern and scalable web applications, using JavaScript, Node.js, Express and MongoDB
- **DF Soluciones Tecnológicas, RA-10 (07-2025 / 02-2026)**
Electrical installation at the Ezeiza atomic center
- **Ocasa (02-2025 / 07-2025)**
Assistant Operator
- **Electricista en SACDE (06-2023 / 11-2023)**
Wiring, connection and maintenance
